

Marilou Robotics Studio

Price List and Licensing Information, October 2008

Prices are listed in Euros (applicable taxes not included) and are subject to change without notice. Prices include one year of free updates (binary files, robots, worlds and devices), responsive e-mail support and forum access.

You will benefit from special renewal pricing if the renewal date matches the end date of the previous subscription period (or first purchase)

anyKode offers special discounts for educational institutions, students and hobbyists. Qualified customers benefit from a **25 %** discount off regular list prices for Marilou **PRO** product.

Please contact us if you need more information, or if the license quantity you are interested in is not listed here. Write to: sales@anykode.com

Marilou EDU: reserved for Education/research, students and individuals.

Reserved for non-commercial use in various educational environments: on-campus and in-classroom instruction, universities, engineering schools and research laboratories.

For education, purchased licenses are shipped with a free STUD License (limited to one year, renewed when EDU licenses are renewed), allowing students and teachers to continue working at home with Marilou on their own computer. STUD licenses are reserved for private use (home) ONLY.

Marilou PRO: for robotics professionals, government organizations and research / education: can be used for commercial purposes. Special prices for Education/Research/ students and individuals (See Marilou PRO for education/research prices).

Marilou Licenses pricing

For countries outside the European Union, anyKode use to adjust its prices according to the Euro exchange value: feel free to contact us.
